ested in Gastroenterology and	13.30	Close		

Mission Statement

The Gastroenterology Foundation of South Africa was established in 2006. The aim of the Foundation is to contribute towards the continuing medical education of Gastroenterologists and Hepatologists in South Africa.

It is autonomous, directed by a group of trustees chosen from a broad spectrum of academic experience.

In addition, the Foundation has successfully contributed to the postgraduate education of Gastroenterologists by assisting in the financing of fellowships abroad. Recently a major focus has been the post graduate education of GI trainees locally by hosting workshops in South Africa.

Our aim is to fund a number of conferences annually updating all those interested in Gastroenterology and Hepatology in South Africa on recent advances in these specialties.
