GastroHepatology Foundation IBD Interest Group Meeting

Saturday 6th December 2025
Vineyard Hotel, Cape Town

PROGRAMME

WELCOME

Welcome to the 19th IBD interest group meeting.

It is a testament to the commitment and excellence of the IBD unit at the University of Cape Town under the leadership of Gill Watermeyer that we are hosting our 19th IBD interest group meeting this year.

Over the years Gill has shown unconditional commitment to the Foundation and has excelled as a teacher, researcher and as a mentor.

The quality of the IBD programs that she arranges is proof of her skills combining relevant and current topics with day to day challenges we all face in our IBD clinics.

Added to this is the utmost scrutiny and respect for evidence based decision making.

Thank you Gill.

And my thanks too to Bini and Juliet for their contributions to the Foundation and for the seamless organizing year after year.

And of course, to all the attendees and our sponsors for your support.

All good wishes for the holidays and the New Year.

Best to you all,

Chris Kassianides
Chairman

The Gastroenterology Foundation of Sub-Saharan Africa Mission Statement

The Gastroenterology Foundation of South Africa was established in 2006. The aim of the Foundation is to contribute towards the continuing medical education of Gastroenterologists and Hepatologists in South Africa.

It is autonomous, directed by a group of trustees chosen from a broad spectrum of academic experience.

In addition, the Foundation has successfully contributed to the postgraduate education of Gastroenterologists by assisting in the financing of fellowships abroad. Recently a major focus has been the post graduate education of GI trainees locally by hosting workshops in South Africa.

Our aim is to fund a number of conferences annually updating all those interested in Gastroenterology and Hepatology in South Africa on recent advances in these specialties.
